EXPLANATION OF CODES AND SYMBOLS USED

1 COURSE CODES

Every course described overleaf has a name and corresponding code. Each code has eight characters as follows, AAAInnnB, where:

AAA	is the three alpha code of the department or unit administering the course (or in the case of a Faculty-administered course, of the Dean's Office).
I	indicates the academic level of the course
nnn	a number between 001 and 999 identifying the course
B	the 'year portion' indicator, or suffix, identifying the type of course and when it is offered

EWA	Examination without attendance at lectures
CE	Continuing education course
SUP	Supplementary examination in a course

Credit values for non-GSB undergraduate programmes are displayed only as from 2010, and for the postgraduate programmes and GSB undergraduate programmes, as from 2011.

2 HEQSF COURSE LEVEL

5	The entry level of an undergraduate diploma or bachelor's qualification
6	The intermediate level of an undergraduate diploma or bachelor's qualification
7	The exit level for a general 3-year bachelor's degree
8	The exit level for a professional 4- or 6-year bachelor's, postgraduate diploma or honours qualification
9	A master's degree
10	A doctoral degree

Motivational letter

My name is Thifhidzi Rammbuda. A Dedicated, organized and enthusiastic BSc Computer Sciences and Applied statistics final year student . I have a clear, logical mind with practical approach to problem solving and drive to see things through to completion. Always looking for opportunities to improve myself and help others around me. My past experiences and eager to learn are my drive force into obtaining my aspiring profession as a software developer/data engineer.

I'm very passionate on what I do, this is evidence by achievements and lot of social programmes that I did in High school and currently doing at the moment.

Having served as a mentor, tutor and taking up numerous leadership roles such as being the School president and being in the house committee in a UCT residence has given me a lot of skills and growth.

As concluding remarks, we live in a country which is faced by many challenges that further disadvantage young people from poor backgrounds to reach their full potentials. Unemployment is very high, and opportunities are rare. I would like to play a role in the next 5-10 years in helping young people to understand that your background doesn't determine your future and help them understand that if you want something you must go get it at all costs. This bursary opportunity will help me to achieve and further my dreams as I become close to being a software developer/data engineer. This will encourage many young students who do look up to people like myself. I will really appreciate this opportunity. Thank you
