01 PROFILE

I am a second year level student at the University of Cape Town, majoring in Computer science and business computing. I love helping others wherever I can, especially if that person is in need of academic help. I have a passion for software development, especially the back-end side of things. I hope to one day work in industry as a Java/C#/Python developer.

02 EMPLOYMENT HISTORY

Mar 2022 — Jul 2022

Cape Town

Tutor at Department of Information systems, Univerdity of Cape Town

I was responsible for assisting students with the practical component of the course, this included Microsoft Excel and Python programming. Secondary responsibilities included marking and reviewing student's work and giving feedback.
